## INDUSTRY EXPERIENCE

### **I/T Consulting - Consultant/Programmer/Project Manager**

*Donohue Computer Services, LLC, Portage, MI (July, 2002 - present)*

[Application Design & Development on Web, iSeries, and PC; Project management and supervisory](#)

I am currently working full-time on contract to a large Manufacturing company utilizing my skills in project management, analysis, and application development on iSeries. This has included supervision of up to 5 programmers, weekly status meetings with users, Help-desk, EDI, and bar-coding support. I recommended and administer Turnover Source Change Mgmt software, and provided training and technical support for programmers. Started as a 1 year contract and renewed every six months thereafter. I have also designed several web sites for local businesses and organizations.

### **I/T Consulting - Consultant/Programmer**

*Dynamic Computer Services, Inc., Grandville, MI (February 1998 – July, 2002)*

[Application Design & Development on Web, AS/400, PC, and Client/Server](#)

Provide consulting, design, and development services to many West Michigan clients in manufacturing, insurance, non-profit, municipal government, retail, and distribution industries.

### **Manufacturing - Senior Programmer/Analyst**

*Flowserve Corp (formerly Durametall Corporation), Kalamazoo, MI (August 1995 - February 1998)*

[Application Design & Development on AS/400, PC, and Client/Server platforms;](#)

Also: Secured AS/400 by developing customized exit point programs; gave public presentations on ODBC.

### **I/T Consulting - Consultant/Programmer**

*Business Support Group of Michigan, Kalamazoo, MI (January 1995 - August 1995)*

[Application Design & Development on AS/400](#)

Also: developed and presented training for client's programmers on application development using RPG IV.

### **Automotive - Programmer/Analyst**

*Summit Polymers, Kalamazoo, MI (August 1993 - January 1995)*

[Application Design & Development on AS/400 and PC](#)

Also: Headed implementation team for new ERP software. Gained experience with EDI and bar-coding technologies.

### **Insurance - Programmer/Analyst and PC Specialist**

*HRM Claim Management (formerly Pension & Group Services), Kalamazoo, MI (June 1988 - August 1993)*

[Application Design & Development on AS/400, PC, and client/server](#)

Also: Sole provider of Networking, PC hardware, and PC Software support for all users in company.
